

CREEPY LETTERS FROM LUKE WENKE - LETTER #3:

The following letter was delivered to a family member's residence in September 2023. It was addressed to a fellow victim of Luke Wenke's, but was undeliverable because that person no longer lives at the address. Because Luke Wenke used my family member's address as the return address (fraudulently and without the household's knowledge or permission), the letter was therefore mailed "back" to that location.

In addition to using my family member's address as the return address, Luke Wenke impersonated me and signed my name on the letter itself, further proving his tendency to fraudulently assume his victims' identities.

Oh baby! Let's go on a road trip to Montana and help two lovers seal the deal. They say we're gonna be paid big bucks to do this! Let's make fake Red Sox accounts on whatever they call Twitter now, we'll reach out to the internet jester himself.

Let's go to the wide range of events in the area circled like the Haunted Hay Rides to discuss face to face Love, Katie [REDACTED]
